

MATHEUS FONSECA

Product Designer

Rio de Janeiro, Brazil | fonsecaa.design@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Product Designer with 5+ years shipping end-to-end experiences for Web3, fintech, and healthcare, and others sectors. I help teams turn complex on-chain and data-heavy systems into interfaces that work, validating through research, building scalable design systems in Figma, and accelerating delivery with AI-assisted workflows. My work has been acquired by Kraken and Worldchain, presented at Devcon Thailand, and recognized with 3 hackathon wins.

WORK EXPERIENCE

Product Designer

Nov 2025 – Apr 2026

Transparent.space | Remote

- Designed core product experience for a blockchain transparency platform acquired by Kraken and Worldchain, validating product-market fit and design quality.
- Designed data-intensive dashboards for liquidity providers, reducing time-to-insight by ~30% through clear visual hierarchies.
- Accelerated design cycles by 40% using AI-assisted workflows, and lifted task-completion rate from 61% to 88% through usability testing.

Product Designer (Brand & UX)

Oct 2024 – May 2026

Hedgehog Protocol | Remote

- Led end-to-end product for a Web3 prediction market protocol across 3 major product releases, owning research, AI, and prototyping.
- Designed a conversion-first waitlist landing page that achieved 37.5% conversion with zero paid spend, turning 40K+ organic followers into 15,000+ qualified sign-ups.
- Founded the brand design function from scratch, building the visual identity system alongside the 120+ component Figma design system that cut design-to-dev handoff time by ~35%.
- Redesigned on-chain interaction flows (bet placement, settlement) to reduce cognitive load and improve accessibility for non-technical users.

Brand Designer (Part-time Contract)

Oct 2025 – Dec 2025

Picnic | Remote · Contract

- Defined a cohesive brand and product design system covering color, typography, iconography, and component tokens, establishing a scalable visual language adopted across all product surfaces.
- Delivered interface foundations and key marketing visuals that strengthened product identity and supported a go-to-market launch within a 12-week timeline.

Freelance Product Designer

Jan 2024 – Oct 2024

Web3 & Hackathon Projects | Remote

- Delivered 6+ product design projects in fast-paced, hackathon-driven environments, consistently shipping from concept to prototype within 48–72 hours.
- Selected for Superfluid Guild 2; project ranked among program highlights, earning grant funding and an invitation to present at Devcon Thailand, a top-tier international Web3 conference.
- Applied design thinking methodologies and user journey mapping to validate problem-solution fit before each build, reducing post-hackathon pivot rate.

Product Designer

May 2021 – Dec 2023

Iron — Health Within Your Reach | Remote

- Designed responsive healthcare interfaces during peak COVID-19 demand, supporting 90,000+ patient interactions per month by improving accessibility and usability across teleconsultation flows.
- Structured critical user flows for remote consultations (scheduling, intake, video call, follow-up), reducing average patient journey friction from 7 steps to 3.
- Conducted user interviews and usability testing with patients and clinicians, translating findings into 3 major flow improvements that increased appointment completion rates.

SKILLS

Design Tools: Figma, FigJam, Miro, Adobe XD, Photoshop, Illustrator, Blender, Nomad

UX Methods: User Research, User Interviews, Usability Testing, User Journey Mapping, A/B Testing, Competitive Analysis, Design Thinking, Interaction Design, Wireframing, Design Systems, Prototyping

Product: Product Strategy, Roadmap Planning, Cross-functional Collaboration, Stakeholder Management, Agile / Scrum

Accessibility: WCAG Guidelines, Responsive Design, Inclusive Design

Domain: Web3, Blockchain, DeFi, Fintech, Healthcare UX, Data-intensive Interfaces, Saas, Design System, AI Assisted Design

Languages: English (Fluent), Portuguese (Native), Spanish (Intermediate)

EDUCATION & CERTIFICATIONS

Nielsen Norman Group Course: Designing Complex Apps for Specialized Domains	2024
cfPRO Course: Scalable System Design on Figma	2024
UI Boost Course: 100h+ UI and Diagram Design Formation	2023
UX Unicornio Course: 120h+ Product Design Formation	2022
Anhanguera Educacional BSc in System Analysis and Development · International Business and Foreign Trade	2019 – 2022

RECOGNITION & AWARDS

- Devcon Thailand 2024 — Invited to present project at Devcon Thailand, the flagship global Ethereum developer conference, following recognition in the Superfluid Guild 2 hackathon program.
- Superfluid Guild 2 Grant Recipient — Project selected among program highlights and awarded grant funding for innovation in Web3 UX and Game product design.
- 2nd Place, BlockchainRio 2025 (BASE Track) — Designed and shipped a full product experience, from concept to working prototype, in under 48 hours at Brazil's largest blockchain event for entry users.
- 1st Place, BlockchainRio 2024 (Ripio Track) — Delivered end-to-end product design for a Web3 application focused on reducing friction for non-technical users.
- 1st Place, ETHSamba 2023 (ETH Track) — Recognized for turning complex on-chain mechanics into an accessible, well-structured user experience at Rio de Janeiro's flagship Web3 hackathon.
