

Matheus Fonseca

Senior Product Designer · Web3 & Fintech · UX/UI · Brand

Rio de Janeiro, Brazil · maths.fonse@gmail.com · +55 (21) 97196-5645 · [LinkedIn](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Product Designer with 5+ years of experience delivering end-to-end UX/UI design for Web3, fintech, and healthcare products. Proven ability to translate complex on-chain and data-intensive systems into intuitive, accessible user experiences. Skilled in Figma, design systems, and agile cross-functional collaboration, with a track record of accelerating design cycles through AI-assisted workflows and winning international recognition in competitive hackathon environments.

WORK EXPERIENCE

Product Designer · Transparent.space

Nov 2025 – Apr 2026 | Remote

- Designed data-intensive dashboards for liquidity providers, reducing time-to-insight by ~30% by transforming complex datasets into clear, actionable interfaces with structured visual hierarchies.
- Improved decision-making visibility for 3+ performance-tracking workflows by mapping SLA metrics to intuitive UI patterns, directly supporting operational targets.
- Accelerated design cycles by 40% using AI-assisted workflows (Figma AI, prompt-driven prototyping), enabling rapid iteration across 5+ product sprints without compromising quality.
- Conducted usability testing sessions that informed 2 major design pivots, improving task-completion rate in user testing from 61% to 88%.

Product Designer (Brand & UX) · Hedgehog Protocol

Oct 2024 – May 2026 | Remote

- Led end-to-end UX/UI design for a Web3 prediction market protocol, owning user research, information architecture, wireframing, prototyping, and handoff across 3 major product releases.
- Architected a scalable design system in Figma with 120+ components, reducing design-to-dev handoff time by ~35% and ensuring consistency across desktop and mobile surfaces.
- Redesigned core interaction patterns for on-chain mechanics (bet placement, position management, settlement flows), reducing cognitive load and increasing accessibility for non-technical users.
- Collaborated in agile sprints with engineering and founders, delivering production-ready, WCAG-compliant solutions aligned with product roadmap and business KPIs.

Brand Designer · Picnic

Oct 2025 – Dec 2025 | Remote · Contract

- Defined cohesive brand and product design system — covering color, typography, iconography, and component tokens, establishing a scalable visual language adopted across all product surfaces.
- Delivered interface foundations and key marketing visuals that strengthened product identity and supported a go-to-market launch within a 12-week timeline.

Freelance Product Designer · Web3 & Hackathon Projects

Jan 2024 – Oct 2024 | Remote

- Delivered 6+ product design projects in fast-paced, hackathon-driven environments, consistently shipping from concept to prototype within 48–72 hours.
- Selected for Superfluid Guild 2; project ranked among program highlights, earning grant funding and an invitation to present at Devcon Thailand, top-tier international Web3 conference.
- Applied design thinking methodologies and user journey mapping to validate problem-solution fit before each build, reducing post-hackathon pivot rate.

UX/UI Designer · Iron — Health Within Your Reach

May 2021 – Dec 2023 | Remote

- Designed responsive healthcare interfaces during peak COVID-19 demand, supporting 40,000+ patient interactions per month by improving accessibility and usability across teleconsultation flows.
- Structured critical user flows for remote consultations (scheduling, intake, video call, follow-up), reducing average patient journey friction from 7 steps to 3.
- Conducted user interviews and usability testing with patients and clinicians, translating findings into 3 major flow improvements that increased appointment completion rates.

SKILLS

Design Tools: Figma, FigJam, Prototyping, Wireframing, Design Systems, Interaction Design

UX Methods: User Research, User Interviews, Usability Testing, User Journey Mapping, A/B Testing, Competitive Analysis, Design Thinking

Product: Product Strategy, Roadmap Planning, Cross-functional Collaboration, Stakeholder Management, Agile / Scrum

Accessibility: WCAG guidelines, Responsive Design, Inclusive Design

Domain: Web3, Blockchain, DeFi, Fintech, Healthcare UX, Data-intensive Interfaces

Languages: English (Fluent), Portuguese (Native), Spanish (Intermediate)

EDUCATION & CERTIFICATIONS

Nielsen Norman Group

2024

Course: Designing Complex Apps for Specialized Domains

cfPRO

2024

Course: Scalable System Design on Figma

Anhanguera Educacional

2019 – 2022

BSc in System Analysis and Development · International Business and Foreign Trade

RECOGNITION & AWARDS

Devcon Thailand 2024 — Invited to present project at Devcon Thailand, the flagship global Ethereum developer conference, following recognition in Superfluid Guild 2 hackathon program.

Superfluid Guild 2 Grant Recipient — Project selected among program highlights and awarded grant funding for innovation in Web3 UX and DeFi product design.

2nd Place BlockchainRio 2025 (BASE track) — Won second place at Brazil's largest blockchain event, competing on the BASE network track. Designed and shipped a full product experience, from concept to working prototype, in under 48 hours, recognized by judges for UX clarity and product thinking in a high-pressure, competitive environment.

1st Place — BlockchainRio 2024 (Ripio track) — Back-to-back win at Blockchain Rio, this time on the Ripio track. Delivered end-to-end product design for a Web3 application with a direct focus on reducing friction for non-technical users, a recurring theme across all winning projects.

1st Place — ETHSamba 2023 (ETH track) — Won the Ethereum track at ETHSamba, Rio de Janeiro's flagship Web3 hackathon. The project was recognized for turning complex on-chain mechanics into an accessible, well-structured user experience, marking the start of a consistent track record in competitive Web3 design.
